

LHM-SA Weekly Highlights

6th April 2009

Pastor Richard Munzhelele (see picture on left) has been a frequent visitor at LHM-SA and invited us to do an ETS workshop in his parish in Kagiso and another one in Diepsloot. He has offered to come to the office on a weekly basis and to assist LHM-SA with the calls and other ministry that needed urgent attention. The main focus points of his involvement at present are to involve more pastors and lay people in the ETS and Prison ministries.

14th April 2009

Lucas Baloyi was invited to train a cast of 10 players to perform an Easter Drama at the “Fellowship Church” in Randburg. They practiced for weeks. 80-90 people attended the Easter church service and were deeply touched by the drama called “Simon of Cyrene”. One of the ladies came to speak to Lucas afterwards. She is a member of the Ferndale Kindergarden Association and invited Lucas to perform a drama at their next meeting. About 30 people attended that meeting. Many want to enrol in the LHM Bible Studies, and they have asked Lucas to come again. Albert le Roux, a teenager, had not attended church for years. His younger sister, Melanie, invited him to church on Easter Day and now he has become very active in church. Melanie was so happy that she wrote a letter to Lucas and included R10 from her pocket money as a token of her appreciation!

Lucas with the ‘Simon of Cyrene’ cast

20th April 2009

Royce Makonye spent a week in South Africa and the LHM-SA staff assisted him in solving the problems that he experienced in his ETS ministry in Kwekwe, Zimbabwe. He returned to Zimbabwe with much needed equipment, ministry material and money to expand the outreach there. He expressed his heartfelt appreciation to all the donors whose gifts made a huge impact in his country, leading many people to work through Bible Studies and joining the church.

Royce Makonye with provisions for Zimbabwe

27th April 2009

Bishop Tswaedi and the LHM-SA Director met to discuss ministry to prisoners and also to people infected and affected by HIV/AIDS.
