Our first “Equipping to Share” workshop of the year was with the Church Leadership of the Lutheran Church in Southern Africa (LCSA), Gauteng Diocese at the Mofolo North Congregation in Soweto.

Bishop Tswaedi participated in the workshop and commented as follows:

“Once more thank you together with your team for the ETS Workshop that you conducted over the past weekend at our church. The joy, excitement, urgency that was implanted among our people is amazing. For the first time they have witnessed two major things:

- 1. That is possible for a Lutheran Christian to stop a person, let alone a stranger and tell him / her about their hope.*
- 2. That there is immense potential to grow our parish to numbers not seen and dreamed before by being trained and equipped.”*
